

NCA-MT2B verdict: PHYSICS_NO_GO

paired conditioning-effect evidence did not pass every locked gate

Frozen generator	Median gap	P90 gap	Wins vs gradient
RAW control	22.93%	36.32%	0/32
PHYSICS	32.85%	50.72%	0/32

PHYSICS improves the paired gap on 7/32 layouts; median reduction -7.73 percentage points.

Paired bootstrap 95% CI for the median reduction: [-19.09, -3.74] percentage points.

Scope: development validation ablation only. Test ID/OOD remain sealed; no claim of final generalization yet.
